# SENIOR ELITE

**Beet Pulp Based  
High Fat with Flax  
Garlic & Probiotics  
Manufactured Without Corn  
for more ease of Digestion  
Fortified with In The Zone**

Senior Elite is a texturized feed designed for horses requiring higher protein and enhanced fortification that will help repair muscle and rebuild tissue.

This fully fortified feed blends readily digestible starches from high quality oats; highly fermentable fibers from beet pulp and soy hulls; and energy-dense fats from soy oil, ground flaxseed and rice bran. This is a corn free feed.

Senior Elite uses various sources of energy to provide the horse with quick energy from starch, cool energy from fat, and fiber utilizing the entire equine's digestive system. The fats used in Senior Elite are in the form of omega 3 and omega 6 fatty acids that offer a balance to help minimize stiffness and joint swelling.

Senior Elite is set apart from the rest because it is manufactured with In The Zone, our protein, vitamin and mineral supplement that enables a horse to utilize its hay and grain more efficiently.

Probiotics, yeast and chelated minerals, garlic and our special blend of herbs aid in the maintenance of a healthy digestive tract which keeps the horse working at peak performance.

When your horse faces specific nutrient challenges Senior Elite should be your choice of feed, whether your horse is in need of recovery, reconditioning, weight gain or because he is aged.

### **FEEDING DIRECTIONS**

<u>Weight of Horse (lbs)</u>	<u>900</u>	<u>1000</u>	<u>1200</u>
Senior Horse	6	7.5	8
Recovering Horse	6	7.5	8
Young Horse	4	5	6

All Banks Mill horse feeds should be fed with liberal quantities of high-quality hay and/or pasture plus free-choice salt and water.
