Signature 12 is a texturized feed with 12% Protein, 6% Fat and 12% Fiber. This feed is formulated with premium ingredients: oats, corn, molasses and beet pulp. Beet pulp is considered a "super fiber" because it provides more digestible energy than traditional feedstuffs. This combination of ingredients forms a palatable and nutrient-rich sweet feed.

Signature 12 has added fat in the form of soybean oil. This high-quality ingredient enhances protein and energy. This feed meets the energy and nutrient demands of the equine athlete and helps maintain body condition and critical energy stores. Chelated minerals and a balanced vitamin profile with optimum trace minerals ensure superior health. This feed is ideal for the working equine athlete.

Signature 12 is an energy dense feed that provides the horse with quick energy from starch as well as the cool enduring energy from fat and fiber thereby maximizing the equine athlete's potential. An added bonus is the balanced omega 3's and omega 6's which work as antioxidants.

Signature 12 is a superior blended feed with balanced starches and fibers suitable for horses of all ages.

All Banks Mill horse feeds should be fed with liberal quantities of high-quality hay and/or pasture plus free-choice salt and water.

**DO NOT FEED MORE THAN 5 LBS. IN A SINGLE FEEDING**
